Abstract Guidelines for Authors

The present document indicates and details the necessary information for authors about the formatting of an abstract under Microsoft Word prior to submission.

The author should access to the **Word Abstract Template** using the appropriate link available on the congress website [Abstract Submission – FibEnTech 2027 – Fill out the form](#). Download the Word Abstract Template, fill it out, save it as a .docx document, and send it by email to fibentechcongress@ubi.pt, and complete the appropriate submission form.

Then, following the abstract submission deadline, the organizing committee will notify the author of the decision. In case of **abstract acceptance for an oral/poster presentation**, the author will subsequently be requested to **submit the corresponding full paper** for peer review via a new link available shortly on the congress website.

The Word Abstract Template should be **filled out in English**, since all the Abstracts submitted - either partially or entirely - in a language other than English **will not be accepted**.

Please **do not change** the following defined page setup format, text sizes, font, color, line spacing and formatting on the available Word Abstract Template.
